Your AWS distribution choice is critical for Public Sector success

Help your public sector customers as they transition to bringing mission-focused workloads to AWS Cloud. Empower them with the reliability and efficiency they need for their everyday operations, leveraging the most advanced cloud infrastructure available through AWS. Let us support you in confidently delivering exceptional value to your customers with Ingram Micro and AWS.

We support partners interested in doing business in the following sectors:

Government and Smart Cities

National, regional and local governments around the world, as well as GovTech.

Education

Educational institutions, EdTech companies and students.

Healthcare

Public sector healthcare organizations around the world.

Non-profit

Non-profit organizations, NGOs and tech companies serving non-profits.
