

Ingram Micro: Your expert in public sector contracts and grant funding

The public sector made easy.

Let us do the heavy lifting

Accelerate IT modernization, improve your mission effectiveness and access more opportunities with AWS and Ingram Micro. Our AWS team of experts can help you:

- Leverage business intelligence tools to get ahead with our prospecting, capture and support services.
- Manage account mapping with access to our business intelligence tools.
- Leverage small business certifications (8(A), HUBZone, SDVOSB, etc.)
- Leverage our public sector subject matter experts in federal, SLED, healthcare, justice and public safety and non-profits.
- Tap into industry-leading expertise and access teaming opportunities.

Leverage contracts and grants to drive revenue

Ingram Micro has deep expertise in the public sector and we are ready to help you build your business with robust contract and grant services. Our tools, resources and enablement programs make it easier for you to expand in the public sector and better support the mission of government agency customers.

Drive value with Ingram Micro's contract vehicles

Contracts currently available through Ingram Micro's Contract Alliance Program include:

- NASPO Cloud Solutions, 18 participating addendums (California, Connecticut, Delaware, Florida, Hawaii, Idaho, Illinois, Louisiana, Maryland, Massachusetts, Mississippi, Missouri, Nebraska, New Mexico, Oregon, Tennessee, Utah, Vermont)
- G2G Marketplace
