

# Meraki

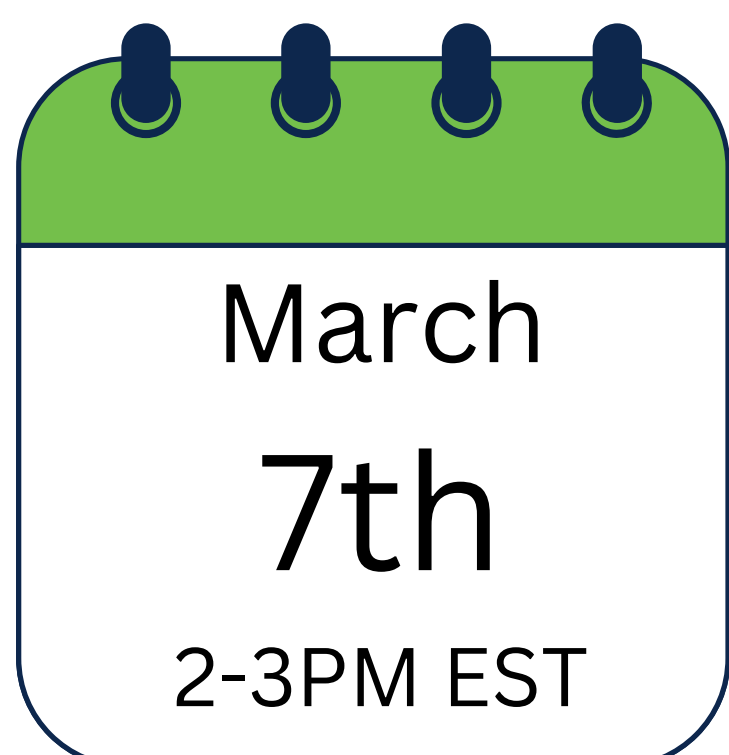

## REIMAGINE PUBLIC SECTOR WITH MERAKI

The future for government is an evolution of tradition. During this series you will learn how Meraki solutions can build a better future for public sector customers.

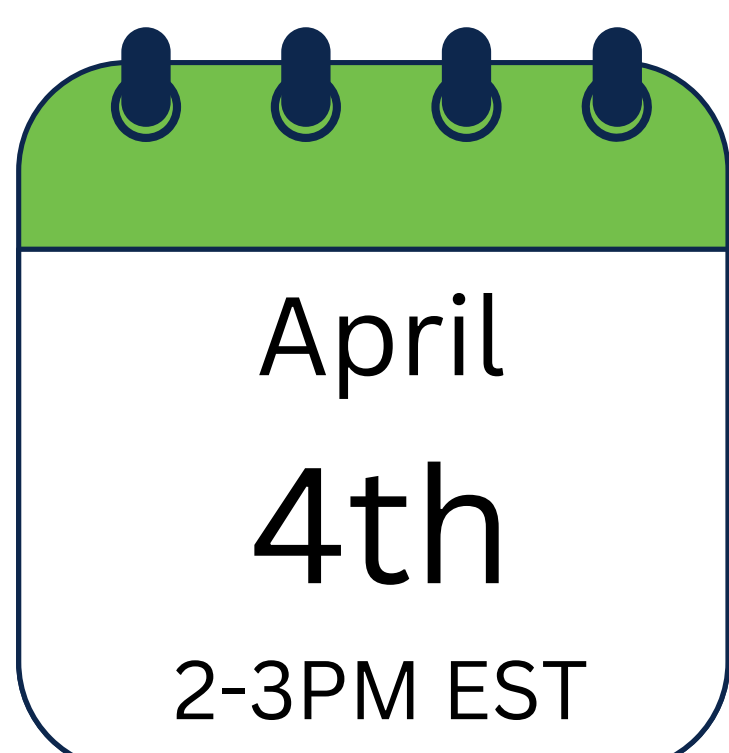

### MERAKI SAFE CAMPUS SOLUTIONS

From end-user devices, to the underlying network, to the students, teachers, and staff themselves, Cisco Meraki is helping schools remain safe and secure at several touch points. By integrating endpoint security, network security, and physical security, Meraki enables schools to create a safe campus environment that empowers students to focus on learning, teachers to focus on teaching, and IT to focus on proactive projects. During this session Katie Antonetti from Meraki US Public Sector team will share with you how to leverage Meraki safe campus solutions for your customers.

### MERAKI ECOSYSTEMS FOR SLED

Future proof your solutions with Meraki Ecosystems and expand your Meraki SLED deal size. Create custom SLED solutions with apps, APIs, and built-in integrations from our partner ecosystem. Join us to learn about the power of Meraki Ecosystem.

### LEVERAGING CISCO PUBLIC FUNDING FOR INCREASED CUSTOMER REVENUE AND VALUE

Join Cisco Meraki & the Ingram SLED/Public Sector teams for an all-in session on Leveraging Cisco Public Funding. Whether it is taking full advantage of E-rate for K-12 & Libraries to Federal grants such as the School Violence Protection Program, learn how to navigate and add value with customers on helping increase funding opportunities for them and revenue opportunities, adding value for you!
