DELL TECHNOLOGIES

Get special pricing on Dell CSG inventory

Support for Windows 10 ends in October, so don't wait to start refreshing your customers' PCs to Windows 11 on AI-enabled Dell devices. Ingram Micro can help by making it more affordable and efficient with:

- Same-day shipping
- Special pricing on Ingram Micro Xvantage™

Remember to attach displays and client accessories to help your customer complete their "Dell desks." As a Client+ rebate-eligible partner, you can earn a 5x multiplier on client accessories (base rate) and 2x on displays and docks.

To view eligible, in-stock products, visit our [Dell CSG page](#).

For refresh support and special pricing details, contact our dedicated Dell team at dellemc-csg@ingrammicro.com.

ERICSSON

Ericsson trade-up program: upgrade customers to wireless WAN

Help your customers upgrade their existing network from lower-performing WAN and old equipment. Through Ericsson's trade-up program, they can leave existing contracts behind and immediately move to best-in-class wireless WAN. Simply add a free one-year extension to the purchase of a three- or five-year Ericsson NetCloud subscription with new Ericsson Cradlepoint routers.

For more information, contact julia.flatley@ingrammicro.com.

MICROSOFT

Microsoft ROI tool for Windows 11 upgrades

Microsoft commissioned Forrester Consulting to develop an end-of-service (EOS) calculator to help customers understand the impact of Windows 10 EOS on their organizations as well as the benefits of deploying Windows 11. **Available through Oct. 14, 2025**, this tool will help customers determine:

- If their current Windows 11 upgrade will be completed by Oct. 14, 2025 (Windows 10 EOS)
- The benefits and costs of expediting their upgrade timeline.

Plus, the calculator includes partner do's and don'ts and FAQs.

To find out how outdated PCs put your customers at risk, [view the one-pager](#). **For more information**, contact louis.dithomaskeller@ingrammicro.com.
