Learn. Sell. Reward.

HP Curiocity is an interactive online adventure like no other that provides enhanced training, community engagement, and reward and recognition opportunities to help drive your sales success.

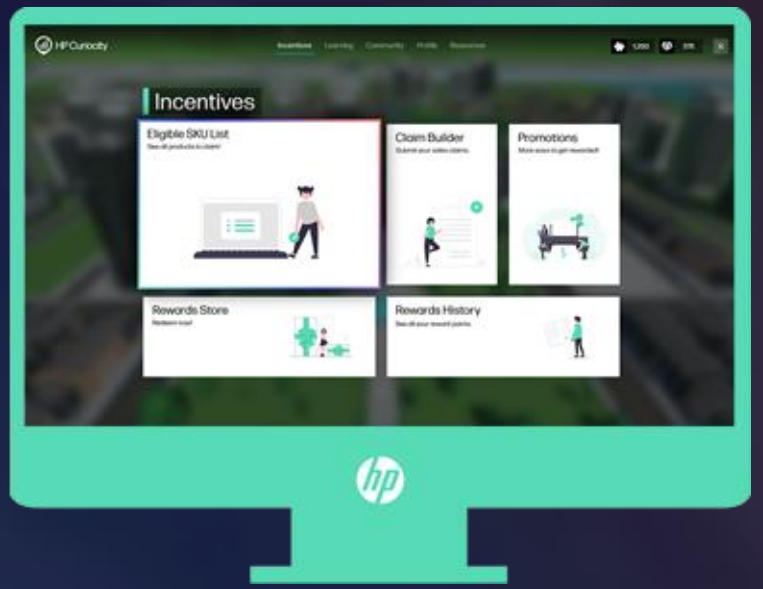
Learning

Education courses offer a great opportunity to increase HP product and solutions knowledge and improve sales skills. Earn points or Gems for successfully completing each course in the Learning tool.

1. Select training of your interest.
2. Complete the training.
3. Pass the accompanying quiz, if applicable.
4. Receive the associated incentive, if applicable.

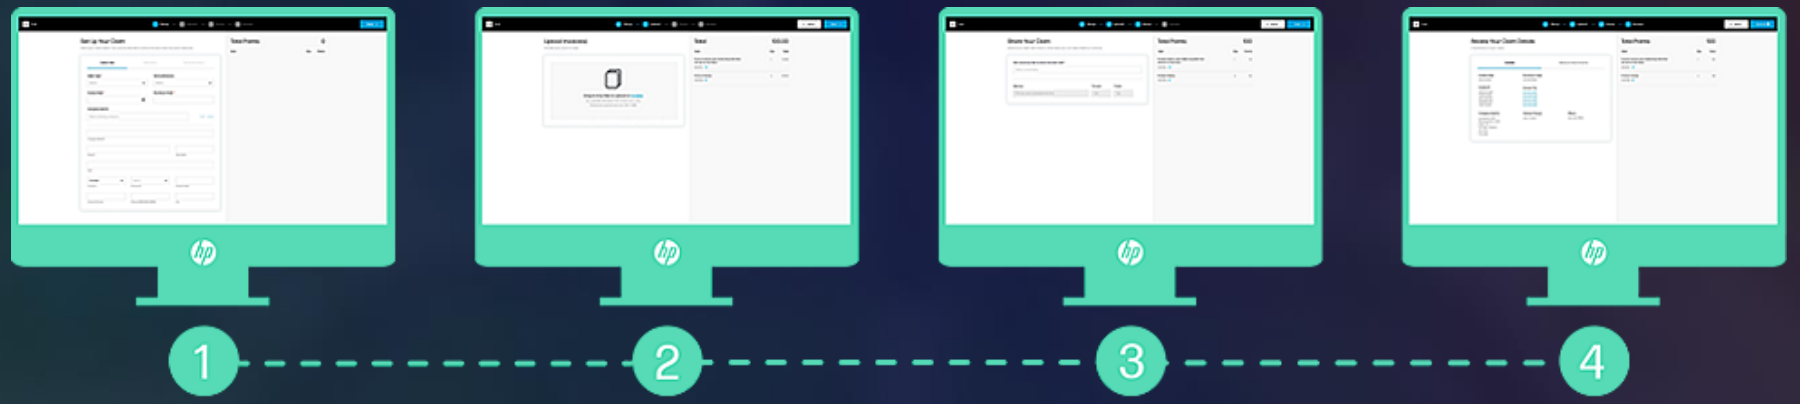
Selling

Click the Incentives building (bank) or the Home > Incentives menu tab for available offers from the Eligible SKU List and Promotions.



Submitting Claims

Select the Incentives menu tab, then Claim Builder tile, or select the Incentive building (bank). Claim Builder provides prompts to complete all required information for a sales claim submission.



1. Fill out claim info, including SKUs and other details.
2. Upload all invoices as proof of sale.
3. Share your claim with others, if applicable, splitting the incentive.
4. Review the claim details and submit.

Earning Rewards

Redeeming your HP Curiocity points for rewards is as easy as 1-2-3!

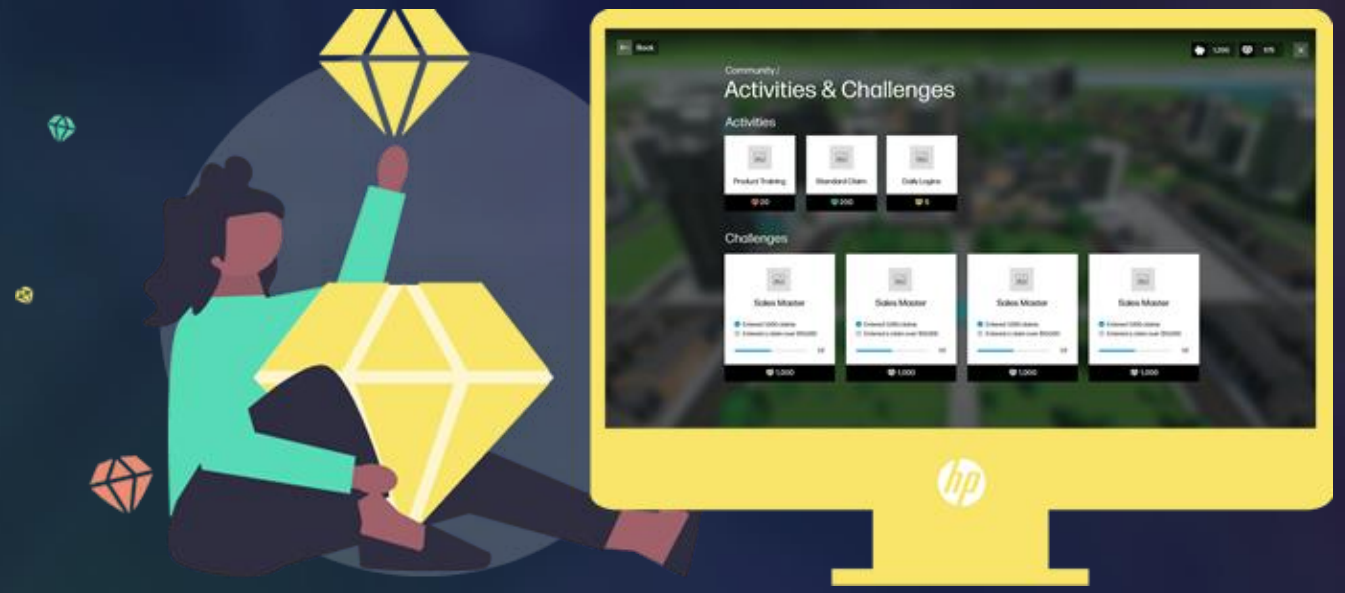
Earn points by completing eligible activities.

Visit the Rewards Store in “Incentives” or by clicking the “Rewards” button in-game.

Submit your redemption request.

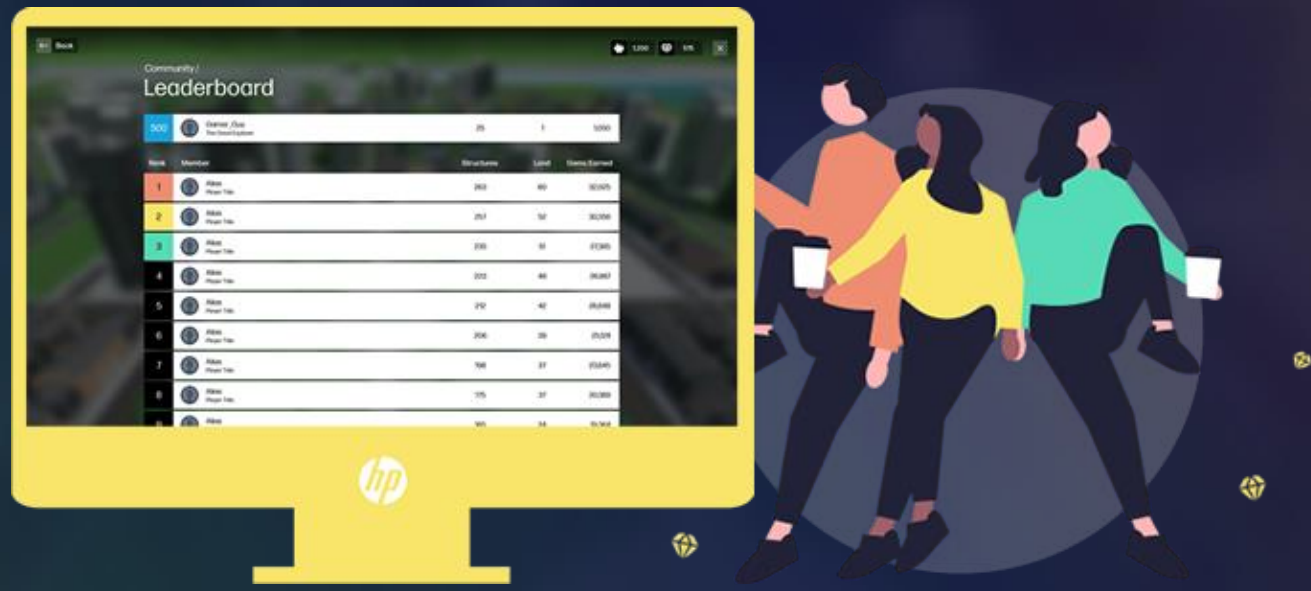
Completing Activities & Challenges

Select the Community building or select the Community menu tab to find the complete list of opportunities.



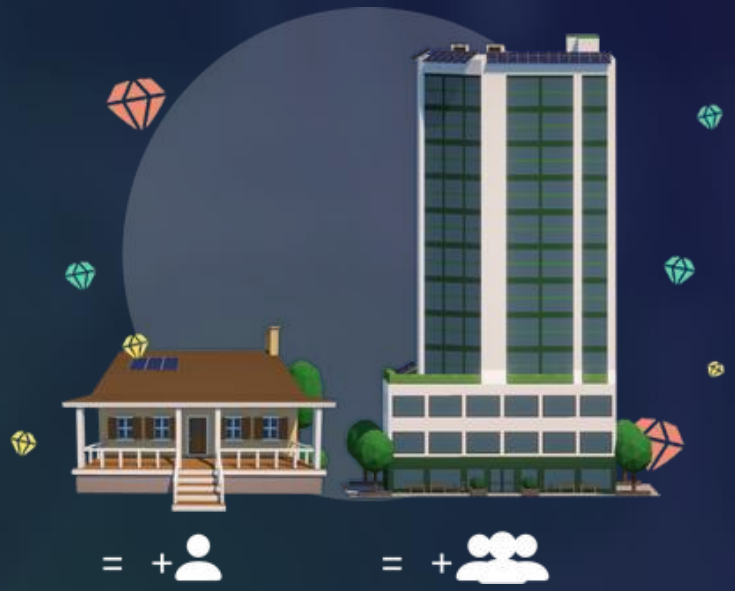
Participating on the Leaderboard

Select the Community building or select the Community menu tab to view the leaderboard.



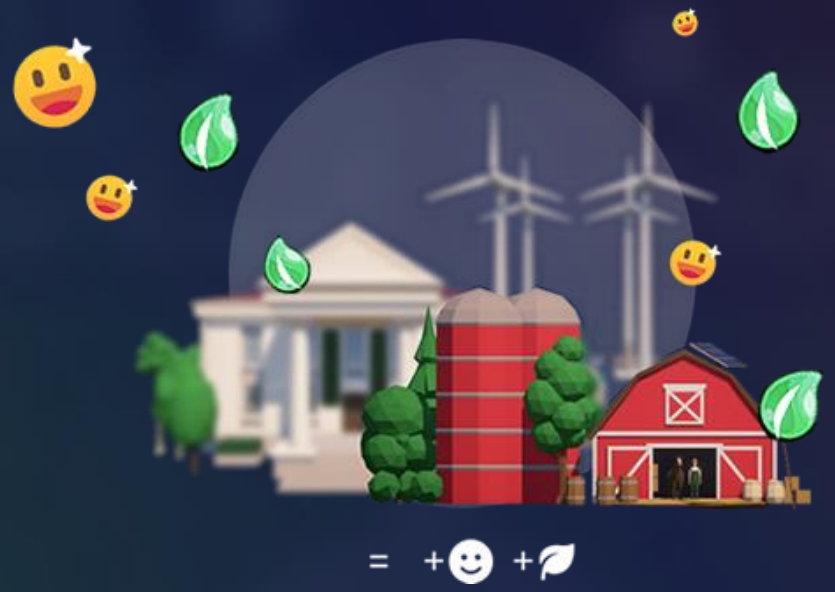
Building & Expanding

Use the Gems you've earned to add various types of items and grow your city by adding more land. Build the most sustainable city with happy citizens!



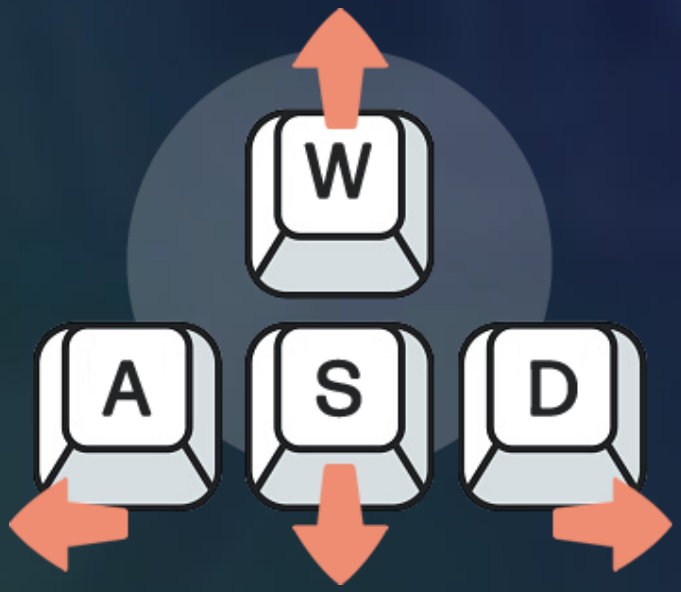
Building Happiness & Sustainability

Different items contribute to your happiness and sustainability levels. Keep your city running at optimum levels as it grows!



Game Controls & Movement

Move across the map using W, A, S, D, or the Arrow keys on your keyboard. Zoom in and out using the scroll wheel on your mouse. Use the R key to rotate your items while placing them on your map.



Accessing Support
